From the private reception, away from public lobbies, away from prying eyes, and all the way up to the exclusive Executive Lounge and Terrace, staying here means staying in style in an elegant, discreet and very select atmosphere.

Extra-soft accommodation for the most discerning of business travellers.

Centre Ville

The Hospitality Complex

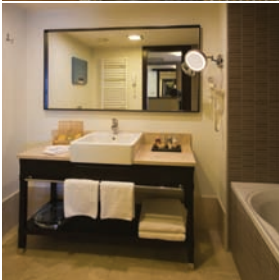

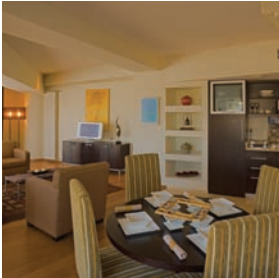

The story of Centre Ville The Hospitality Complex starts with its top location on Calea Victoriei, a very important historic avenue, with haute couture boutiques and beautiful buildings from the Belle Epoque.

Little Paris, as Bucharest used to be called, still retains much of its old elegance and charm in this area and the finest things the city has to offer are close by, with theatres, museums, nightlife or the Cismigiu Garden and other attractions all within walking distance.

Centre Ville The Hospitality Complex updates the area with a contemporary touch and is also fitted to be a one-stop location for all your needs. Together with the Centre Ville ApartHotel, we're proud to mention the newly opened Radisson SAS hotel, Platinum Casino, World Class Health Academy Downtown with its indoor and outdoor pools and jacuzzis, 8 Food & Beverages outlets and bars. Together with these, Centre Ville The Hospitality Complex also offers quality services for all business needs ranging from travel arrangements, all the way to renting a car, branded clothing shops and a bank.

The Centre Ville Elite ApartHotel is designed to become your new long term luxury headquarters in Bucharest. Style recommends them as the true choice for modern business people looking for more than a room with a view.

Welcome home

Hospitality is what makes you feel at home
and we've got plenty.

Happy memories are what we all cherish. Places we hold dear, experiences we'll never forget. We promise that'll be what you feel when staying at Centre Ville Elite ApartHotel.

We'll only mention a few, those extra-special, things to help you understand how close to home we'd like you to feel at Centreville. One which may seem irrelevant to big chains of hotels is "Mother's recipe". Give us the recipe of your favorite dish and a few advices and we'll do the rest. And if you give us feedback, next time it will really taste perfect. Secretarial assistance through the reception is another one. You're busy running the business and could very well use the help. We're glad to be of service. The rest you can figure out by yourself as they are standard in any respectable apartments hotel, things like guarded parking, housekeeping, laundry or supermarket service.

Ready to welcome business people, rockstars, actors or presidents. Or rockstar presidents...

If aromas and flavours could be captured in words, these words about Centre Ville's very own Le Bistro would charm you instantly.

Its almost indescribable character is due to the great selection of Mediterranean dishes, the highly trained staff, the unique design, the privacy and also the Tabun, Mediterranean country brick oven where we bake fresh focaccia, pita and other savory types of dishes.

Built on two levels, Le Bistro is the only place in the center of Bucharest with a quiet, relaxing Garden Veranda entirely made of glass. It overlooks the outdoor pool and jacuzzi in a garden environment.

You can start the day here with an espresso and a newspaper, close an important deal over lunch or unwind after a hard day with a glass of cognac. It is also great for private events of up to a hundred people.

Le Bistro

State-of-the-art facilities ready to take the undesired stress or weight off.

World Class Health Academy Downtown

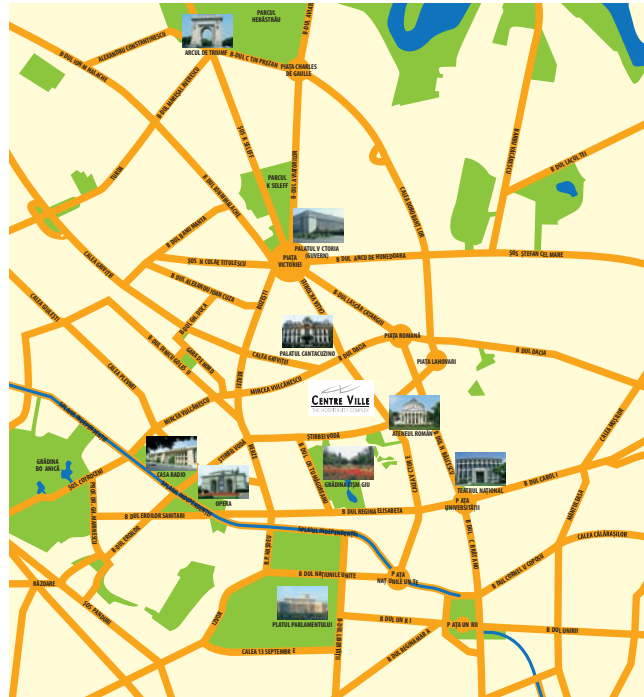

An essential part of our complex and a strong argument for our claim of being the first choice for high level people spending a long time in Bucharest is the World Class Health Academy Downtown.

Much more than a fitness center, it is simply the best location in the country for gym, indoor and outdoor pools, jacuzzis and group fitness programs like spinning, aerobics or tae bo.

An exclusive clientele works out here every day from early morning until late at night with specially trained fitness instructors. The equipment is modern and includes weight stations, treadmills, ellipticals and other high-standard machines.

Inside the center you can also find a hair studio, beauty parlor, solarium and massage.
